Recruiter summary (JD fit overview)

Name: Vinod Kulkarni
Email: vndkulkarni95@gmail.com
Phone: 9902505124

Most recent role: Senior Solutions Developer at Tata Technologies- Tata Motors (29/09/2022 - 04/03/2025)
Total experience (approx. from resume text): up to ~2 years

Candidate skills (at a glance)

- Java
- Python
- C++
- C#
- JavaScript
- HTML
- CSS
- PHP
- Django
- Flask
- Hibernate
- CherryPy
- Apachestruts
- Java Server Faces (JSF)
- Spring
- Spring boot
- Microservices
- Play Framework
- Fast API
- Pyramid
- NumPy
- SciPy/Pandas
- SQL
- MYSQL
- Postgre SQL
- Snowflake
- Relational Databases
- AWS
- AZURE Database
- AWS Solutions Architecture
- AWS Cloud Practitioner
- Microsoft Azure
- CI/CD Pipelines
- DevOps
- Grafana
- MS Excel
- Microsoft Power BI
- Tableau
- Python Data Analytics
- Power BI
- AWS Quick Sight
- Apache NiFi
- Flow Manager
- Report Automation
- Jira

- Automated Testing
- ETL & Data Warehouse Testing
- BI Reporting
- Agile Methodologies
- Git
- Bitbucket
- Windows
- Linux
- Android
- Apple
- React
- AWS LAMBDA
- Postman
- Angular
- Maven
- Selenium
- DynamoDB
- RDS
- Kubernetes
- Mongo DB
- Putty
- Winscp
- Eclipse
- SQS
- SNS
- Event bridge
- Kinesis
- IAM
- VPC
- EC2
- S3
- ROUTE53
- AURORA
- REDSHIFT
- Bootstrap

Match vs job descriptions

Job (JD)	**Resume score** *(keywords vs JD)*	**Profile score** *(LLM fit)*	**Why hire**	**Hiring risks / gaps**
sample_jd 2	20.0	35.0	The candidate demonstrates strong foundational skills in Java and Selenium, which are core to the API Automation Tester role. Their explicit experience with CI/CD Pipelines and DevOps practices aligns perfectly with the mandatory CI/CD requirement. Additionally, their background in cloud-based projects (AWS) and Microservices architecture suggests transferable knowledge relevant to the testing environment.	The candidate's profile shows critical gaps: no explicit mention of the Rest Assured framework, which is a mandatory high-importance skill. There is insufficient evidence of dedicated API Automation Testing experience, let alone the required 6+ years, as their experience leans heavily towards development and cloud analytics. The interview must rigorously validate their hands-on experience with API automation tools, microservices testing methodologies, and the depth of their Selenium with Java expertise.

Job (JD)	Resume score *(keywords vs JD)*	Profile score *(LLM fit)*	Why hire	Hiring risks / gaps
sample_jd 3	22.2	25.0	The candidate possesses strong foundational technical skills including Java and Selenium, which are mandatory for the role. Their experience with CI/CD pipelines, DevOps practices, and cloud-based application development (AWS, Azure) demonstrates relevant modern engineering exposure. The profile shows experience in testing applications and working on complex systems like vehicle infotainment and IoT platforms, indicating transferable problem-solving abilities for a QA context.	The candidate lacks explicit experience with the core required API automation framework (Rest Assured) and dedicated microservices testing, which are high-priority technical requirements. Their professional background is heavily skewed toward development and cloud architecture rather than focused testing leadership or test automation strategy. The experience level and role history do not align with the seniority required for a QA Lead position (14+ years testing, 4+ years lead), as their described roles are primarily development-focused with limited demonstrated test leadership.
sample_jd 4	25.0	45.0	Vinod demonstrates strong foundational skills in Java and Selenium, which are core technical requirements for the role. His extensive experience with AWS cloud architecture, CI/CD pipelines, and development/testing of connected vehicle platforms suggests relevant, transferable experience in complex, API-driven systems and deployment processes. His career progression and diverse project involvement indicate a capacity to handle responsibility and learn new technologies, making him a candidate worth interviewing to explore the depth of his API and microservices testing experience.	The candidate's profile shows critical gaps against the JD's mandatory requirements: no explicit experience with the Rest Assured framework for API automation, and no direct evidence of designing testing strategies for microservices or performing contract/integration testing. The soft skills like communication and self-management are not demonstrated in the profile. An interview must rigorously validate his hands-on experience with API automation tools, his specific contributions to microservices testing strategies, and his ability to operate independently in a senior role.

Overall fit — strongest job match

Strongest match (by profile fit): sample_jd 4 (sample_jd 4.txt) — profile score 45%, resume keyword coverage 25%.

Why this role fits best:
Vinod demonstrates strong foundational skills in Java and Selenium, which are core technical requirements for the role. His extensive experience with AWS cloud architecture, CI/CD pipelines, and development/testing of connected vehicle platforms suggests relevant, transferable experience in complex, API-driven systems and deployment processes. His career progression and diverse project involvement indicate a capacity to handle responsibility and learn new technologies, making him a candidate worth interviewing to explore the depth of his API and microservices testing experience.

Vinod Kulkarni

Senior Solutions Developer at Tata Technologies- Tata Motors

9902505124 | vndkulkarni95@gmail.com

Objective

- Nearly 6.0 Years Of Experienced Software Professional and 2.7 Years of Experience in Tata Technologies - Tata Motors Limited as Senior Solution Developer. I have Total of 6 Years of Experience in Python, Java, C++, C#, React, Spring Boot, AWS Solutions Architecture, Microservices, Third Party Integration API Using Postman and AWS LAMBDA, Python 3 All Versions ,Angular Version 16,17,18,Git, Analytics, Grafana, MS Excel, MS PowerBI CI/CD Pipeline Integration, Debugging, Having Experience in Tata motors Production Line. Having certified, Mastered , expertized Hands on Experience on Grafana, Microsoft Excel, Background from B.E Electronics Expertise in C++,Java, Python, Javascript, Micorservices, CSS,HTML, AWS Cloud practitioner and AWS Solutions Architecture and many other Technologies willing to work in Collaborative Team, Punctually and Sincerely, Effectively.

- **Technical Skills :-**
- **Programming Languages: Java , Python, C++,C#, JavaScript, HTML, CSS, PHP**
- **Frameworks & Libraries :- Django, Flask, Hibernate, CherryPy , Apachestruts, Java Server Faces (JSF),Spring, Spring boot, Microservices Play Framework, Fast API, Pyramid, NumPy, SciPy/Pandas.**
- **Databases: SQL, MYSQL, Postgre SQL, Snowflake, Relational Databases, AWS and AZURE Database**
- **Cloud & DevOps: AWS Solutions Architecture, AWS Cloud Practitioner, Microsoft Azure, CI/CD Pipelines, DevOps, Grafana, MS Excel**
- **Data Analytics Tools :- Microsoft Power BI, Tableau, Microsoft Excel, Python Data Analytics.**
- **Tools & Technologies: Power BI, Tableau, AWS Quick Sight, Apache NiFi, Flow Manager, Report Automation, Jira**
- **Test Automation & Agile: Automated Testing, ETL & Data Warehouse Testing, BI Reporting, Agile Methodologies**
- **Version Control: Git, Bitbucket**
- **Operating Systems: Windows, Linux, Android, Apple.**

Experience

Solutions developer
Level 1.1

•Tata Technologies-Tata Motors (29/09/2022 - 04/03/2025)

I was working as a SENIOR SOLUTIONS DEVELOPER in Engineering Research and Development in DPDS Department in Tata technologies-

I have Total of 5.9 Years of Experience in Python ,Java, Java Selenium, Maven, React, AWS, Microservices, Third Party Integration API Using Postman and AWS LAMBDA, Data Analytics, Grafana, MS Excel, MS PowerBI.

Tata Motors and working on AWS,IOT CLOUD Technology was working on Data Analytics of AWS IOT CLOUD Data

Connected to TATA MOTORS VEHICLES. My main work was to development and maintenance of

Infotainment System and One layer of Tata Motors Production Line and End User Application of 14 Lakh CV, PV and EV Tata motors Vehicles connected on to AWS Cloud.
Maintainance of thier data coming from TCU and capture and reduce errors and Resolution of the errors. Maintainance of the data coming to AWS IOT Cloud, Making project Documents,
Trying to bring innovations and Technologies to the platform to innovate or automate. Hard work Team Work, Collaboration, Sincerity, Punctuality etc.

I have Total of 6.0 Years of Experience in Python , Java, Java, C++,C#,AWS, Microservices, React ,Third Party Integration API Using Postman and AWS LAMBDA, Data Analytics, Grafana, MS Excel, MS PowerBI.CI/CD Pipeline

Met Expectations for 6 Consecutive Years 2023-2024 and one of top performer in Tata technologies-Tata Motors Engineering Research and Development DPDS.

I have Total of 6 Years of Experience in Python ,Java, React, AWS, Microservices, Third Party Integration API Using Postman and AWS LAMBDA, Java, Data Analytics,Grafana, MS Excel,MS PowerBI.CI/CD Pipeline Integration and Various Other tools for SDE

6) Project 6:- JIRA tracker Software (July 2024- October 2024):- Jira is software that helps to raise the ticket for the issues observed on Tata Motors Production Line Platform and handover the issues to the Tata Elxsi Team and thus efficiently resolve Bug and thus efficiently make environment issue free.
Tools and Skills Set Used:-,Java, Python, React ,Java,C#, and Springboot, Microservices, Rest API,Grafana, Excel,CI/CD Pipeline,Frameworks,Agile and Scrum. Jira,AWS IOT Cloud,AWS Services.
Work Assigned:- Maintainance of the Data of Jira and thus efficiently take all the pending tickets towards the closure as soon as possible.

5)Promoted and Was again asigned in A4G or Acculate 4G Vehicles:- (October 2023 to October 2024)

:- The 3 Clusters Consists of 3 Lakh CV Vehicles Onboarded on to the AWS IOT Cloud.
Tools and Skills Set Used:- Python,React,React, AWS LAMBDA,DynamoDB, bridge,DynamoDB,RDS,Java,C#,C++, and Springboot, Microservices, Restful,GraphQl API,Grafana, Excel, CI/CD Pipeline,Frameworks,Agile and Scrum. Jira,AWS IOT Cloud,AWS Services, AWS solution Architecture, AWS Cloud Practitioner,Agile,Pair Programming Practises.
Work:- Complete Monitoring of A4G Vehicles 3 Grafana Clusters and Its health monitoring and to post if any issues are observed in the group and issue resolution of the issues.Making its Performance Hours Reports and 24 hours Reports. Single handedly made its performance reports and its 24 hours continuously and made most performance reports and its Complete 24 hours report single handedly without missing a single day for one year and was top performer in It.Made 1500+ Reports in Excel Sheet Indirectly Maintaining of 3+ Lakh CV Vehicles onboarded onto it.
Tools Used:-Python,Java,C++,C#,Eclipse,Python 3, Angular Version 16,17,18,AWS Solutions Architecture. Java, Springboot, Microservices Grafana ,Excel Sheets, Putty, Winscp, Mongo DB,Kubernetes etc.

4) Project 4 :- Promoted and Was Given Responsibility Of one Complete Cluster Called BS4 or CVEDL (Jan 2023 – October 2023) :- Then I was given the responsibility of Handling one Complete Cluster called BS4 Engines or Commercial Vehicle Engineering Data Logger.The whole data Log of CV and its Complete Cluster Handling was Given To Me.Handling of Whole CVEDL I worked In CVEDL For 10 Months and was top performer in it....
Tools and Skills Set Used:- Python 3 Java Selenium, Maven, Angular Version 16,17,18React ,Java and Springboot, Microservices, React, Rest API, Grafana, Excel,CI/CD Pipeline, Frameworks,Agile and Scrum. Jira ,AWS IOT Cloud,AWS Services.
Work Asigned :- Complete Monitoring of One Complete Cluster And post if any issues are observed and resolution of the issues.
Making its Performance Hours Reports and 24 hours Reports. Single handedly made its performance reports and its 24 hours continuously and made most performance reports and its Complete 24 hours report single handedly without missing a single day for one year and was top performer in It.Made 1500+ Reports in Excel Sheet Indirectly Maintaining of 1+ Lakh CV Vehicles onboarded onto it.
And was top performer in it.
Making its Project Document using Microsoft Word.
Tools and Skills Set Used:- Java ,Maven ,Python 3, Angular Version 16,17,18Java,C# and Springboot, Microservices, React, Rest API,Grafana, Excel,CI/CD Pipeline,Frameworks,Agile and Scrum. Jira,AWS IOT Cloud,AWS Services.
Tools Used:- Grafana,Excel Sheets, Putty,Winscp,Mongo DB etc.

3) Core CVP Vehicle Connected Platform (October 2022- October 2024):-
The project consist of 8 Lakh CV,EV and PV onboarded Vehicles connected to aws iot Cloud and tcu data is brought to our Layer 3 the data is stored in the PROMETHEOUS and Then stored in Grafana.Our work is Continous Monitoring of 5 CVP Clusters and Observe Issues observed if any post in the team's group and raise jira ticket for observed issues.
Any issues observed
Tools and Skills Set Used:- Python 3, Angular Version 16,17,18 AWS Services Java, React and Springboot, C#,Microservices, Rest API,Grafana, Excel,CI/CD Pipeline,Frameworks,Agile and Scrum. Jira,AWS IOT Cloud,AWS Services. Make its reports in Excel Sheet called 24 Hours which gives complete details of 8 Lakh Vehicles of last 24 hours. Single handedly made reports of 24 hours for 2 years. And 8 months continously without missing a single day from January to October.Made over 900+ Reports Single Handedly and Handled All 5 Clusters for Over 2 Years.Indireclty Controlled Infotainment box and End User Application of 8 Lakhs Vehicles CV,PV and EVs Connected to it.Got appreciation from the team.
Tools and Skills Set Used:- Java Selenium,Maven ,Python 3, Angular Version 16,17,18,Java and Springboot, Microservices, Rest API,Grafana, Excel,CI/CD Pipeline,Frameworks,Agile and Scrum. Jira,AWS IOT Cloud,AWS Services.

2) IVIDMS (Sep 2022- Dec 2022):- In Vehicle Infotainment Digital Management System:- This Project was to build new and Efficient Management of Infotainment systems for Tata Nexon.The project

member cosist of 9 Members and our main work was to deployment of vehicle,Collaboration with Harman Team, Development of Infotainment System and

Testing of APIs.Grafana

Tools and Skills Set Used:- Java Selenium,Maven React, Python, C#,Java and Springboot, Microservices, Rest API,Grafana, Excel,CI/CD Pipeline,Frameworks,Agile and Scrum. Jira,AWS IOT Cloud,AWS Services.

Monitoring,Infotainment Testing Etc
Work Assigned :- To Test the test cases using software Postman and validate it using software Postman. Development of new Informatainment Box for Vehicle Tata Nexon, Tata Harrier and Various Passenger Vehicle.
Development of Test Document on Vehicles Tata Nexon, Tata Harrier, React Etc.
Tools Used :- Software Postman,Excel and other tools various tools for development.

1)I-Get – (October 2022-November 2022) :- Developing the software application for Tata-Motors. Tool used:- Java Script and Java,Python.

- MIT(Mars Information Technology). 12/09/2019 - 23/09/2022
  Application Developer cum Junior Programmer

  Tools and Skills Set Used:-I have Total of 6 Years of Experience in Python ,Java, React AWS,Microservices,Third Party Integration API Using Postman and AWS LAMBDA, Data Analytics,Grafana,MS Excel,MS PowerBI.

  Junior programmer cum Application developer and has been part of testing many applications and coding in C++,C#, C# AWS CLOUD ARCHITECTURE,AWS LAMBDA

  Tools and Skills Set Used:- Java C++,Maven,Python, Java and Springboot, Microservices, Rest API,Grafana, Excel,CI/CD Pipeline,Frameworks,Agile and Scrum. Jira,AWS IOT Cloud,AWS Services. IAM,VPC,EC2,S3,ROUTE53,AURORA,REDSHIFT,Java and Python and has also done activity in AWS cloud practitioner and architecture of nearly 3.2 years from Jun :2019. During the period of my tenure as an employee with them, I was punctual, hardworking and inquisitive.

  SBR PU Phase 1 (June 2019 – Sept 2020)
  Projects:- Building official websites for SBR PU College.Writing code for Developing Mobile Application Like English Communication app Etc.
  Tools and Skills Set Used:- Tools and Skills Set Used:- Python, React, AWS LAMBDA,SQS,SNS,Event bridge,Kinesis,DynamoDB,Java,C#,C++, and Springboot, Microservices, Rest API,Grafana, Excel, CI/CD Pipeline,Frameworks,Agile and Scrum. Jira,AWS IOT Cloud,AWS Services, AWS solution Architecture, AWS Cloud Practitioner,Python, C# ,Java and Springboot,Microservices,Rest API,Etc.

  SBR PU Phase 2 (Sept 2020 – Oct 2021) :-
  Roles and responsibilities:- Writing and practice the codes and Designing the web application.
  Clients:- SBR Group of Institutions.
  Tools and Skills Set Used:- Python,C#, Java and Springboot, React ,Microservices,Rest API,Etc. MySQL,CSS,HTML, Bootstrap, PHP, AWS Cloud
  Architecture and practioning, Linux.. etc

  SBR PU Phase 3 (Oct 2021 – Sep 2022) :- Writing and practice the codes and Designing the web application. Clients:- SBR Group of Institutions. Building Official Websites for SBR PU College and Maintaining Project Documents. Developing Applications in and Uploading in Google Play Store.
  Tools and Skills Set Used:- Python,C#, Java and Springboot, React ,Microservices,Rest API,Etc. MySQL,CSS,HTML, Bootstrap, PHP, AWS Cloud
  Architecture and practioning, Linux.. etc

Loan Collection Specialist Taiwanese Education
Loan Company (June 2018 – Sep
- 2018)
  I worked as Loan collection Specialist for Two months.
  Taking the loan agents to close the Loan as soon as possible.

-

Manipal Institute of Technology 2023-2025
Pursuing Master of Business Administration (Data Science)
A+

- Appa Institute of Engineering and Technology Affiliated to VTU Belagavi 2014-2018
  Bachelors of Engineering
  First Class

- Shree Guru Independent College of 2011-2014
  Science Pre University Science
  First Class

- New Noble Boys High 2010-2011
  School. SSLC
  87.54% Distinction

Certified Courses

- Hands on Experience on Grafana,MS Excel,Jira, TCU,Telemetry,Generic can,ISO Generic Can, IOT,AWS,PYTHON,Java,Linux,Mongo DB,MySQL, Kubernetes,Testing,Postman etc in Tata Motors.
- C PROGRAMMING CERTIFIED BY MIT KALABURAGI.
- Java PROGRAMMING CERTIFIED BY MIT KALABURAGI.
- PYTHON PROGRAMMING CERTIFIED BY MIT KALABURAGI.
- HIGH COMMUNICATION SKILLS CERTIFIED BY NUDGE FOUNDATION BENGALURU.
- STTP ON GIS(GEOGRAPHIC INFORMATION SYSTEM) CERTIFIED BY KJSITE MUMBAI. • STTP ON BLOCK CHAIN DEVELOPMENT CERTIFIED BY KJSITE MUMBAI.
- AWS CLOUD PRACTIONER GRADUATE CERTIFIED BY AWS ACADEMY.
- AWS SOLLUTION ARCHITECT GRADUATE CERTIFIED BY AWS ACADEMY.
- AWS SOLLUTION ARCHITECT GRADUATE CERTIFIED BY KGTTI KALABURAGI. • LINUX ESSENTIALLS CERTIFIED BY NDG.
- Data Analytics Certified by MIT Kalaburagi. • Power BI Certified by MIT Kalaburagi.
- Advanced Java Certification by Learn Tube AI. • Basic python certification by Learn tube AI.

Internship

- Intern in VLSI from Kaashiv infotech Chennai for 3 months.
- Intern in Embedded System from Kaashiv Infotech Chennai for 3 months.
- Internship in Python Development from Technohacks for 1 month.

Skills

- C Programming Certified by MIT Kalaburagi and Various other organizations
- Java Programming certified by MIT Kalaburagi and various other organization.
- Python Programming Certified by MIT Kalaburagi and various other Platforms
- Javascript certification from MIT Kalaburagi and Various other organizations.
- AWS Cloud practitioner Certified by AWS Academy and KGTTI KALABURAGI.
- AWS Cloud Architecture Certified by AWS Academy and KGTTI Kalaburagi.
- Hands On Experience in Grafana From Tata Motors and Tata technologies.
- Hands On Experience in Microsoft Excel from Tata technologies and Tata motors.
- Data Analytics certified my MIT KALABURAGI And TATA MOTORS.
- Microsoft Power BI Certification by MIT Kalaburagi.
- LINUX Programming certified by MIT KALABURAGI.
- Advanced Java Certification by Learn Tube AI.
- Basic python certification by Learn tube AI.

Projects

- Project for Engineering
- IOT based project.Monitoring of COVID patients using smartphone.Monitoring of parameters like ECG,Heartbeat,SPO2 etc using smartphone using IOT.

Achievements & Awards

- Met Expectations in and One of the top performers in Tata motors-Tata technologies for two Consecutive years 2023-2024
- Secured in top 10 position in School in SSLC exams conducted by KSEEB State board. Proficient in SSLC. Secured Distinction in District Science talent examination in 2009 conducted by District science center in District level. Topped the Communication And Spoken English Classes from NUDGE FOUNDATION. Secured Distinction in Various Government exams. Participated in various sports and culture activities and topped in various sports and cultural activities in school level.
- Topped Nudge Foundation English classes batch by scoring 716 points.
- Secured 91% in one of the government Exams.
- Scored 100% In AMAZON CLOUD PRACTIONER BY AMAZON WEB SERVICES AND KGTTI.
- Participated in International Science Talent exam conducted by District Science Centre and Secured distinction in it in 2009.
- Scored 100% In AMAZON WEB SERVICES Solution Architecture CLOUD ARCHITECT BY AMAZON WEB

- SERVICES AND KGTTI.

Interests

- Cricket,Swimming,Painting etc
